

The following resolutions were adopted by the Village of New Denver Council at the August 14, 2007 Regular Meeting:

"WHEREAS, residents of the Village of New Denver have made inquiries of Health Canada regarding the impacts of cell phones on the health of individuals; and

WHEREAS, there has been no response from Health Canada as of August 14, 2007 regarding these impacts; that

The CEO of Telus be contacted with a request that the installation of cell service in the Village of New Denver be postponed until such times as Health Canada has responded to the residents' concerns."

Moved and seconded:

"That the Council of the Village of New Denver require that Telus and the Canadian Broadcasting Corporation, indemnify the Village of New Denver against any legal action or lawsuits brought against the Village for downstream health damages or deaths."

Carried.

Moved and seconded:

"That Telus be contacted and asked what the monitoring regime is for microwave emissions on cell towers and if there is no regime, that Telus be requested to implement one and provide a baseline for the monitoring, and dates and times of when monitoring will take place."

Carried.
